

Atelier d'Origami

Coupelle

je prends une feuille carrée à origami
(15 x 15 cm ou plus grande)

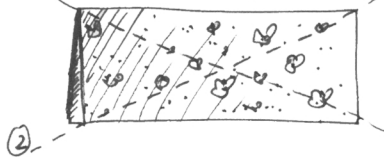

penser
à toujours
bien marquer
les plis!

plier selon des pointillés

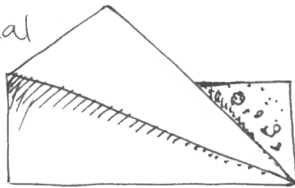

plier

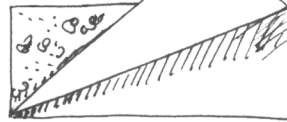

① marquer les plis en diagonal

①

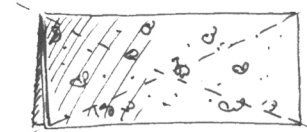

②

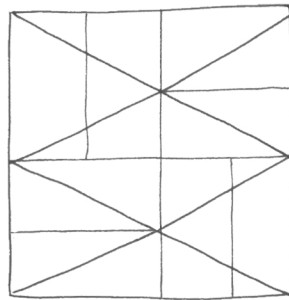

tourner
sur l'autre
côté

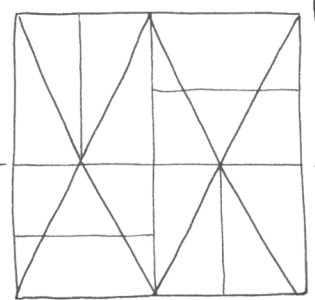

refaire la même chose

ouvrir

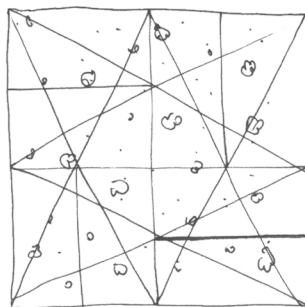

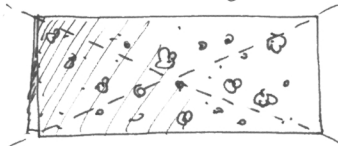

tourner
la feuille
de 90°

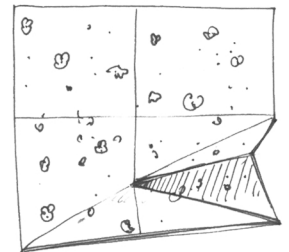

plier

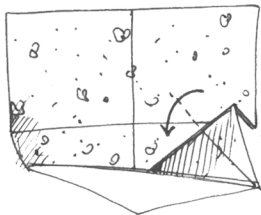

répéter le pliage diagonal sur
les deux côtés

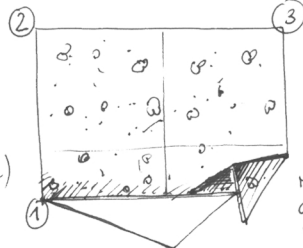

pincer ce pli
et soulever

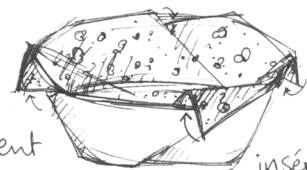

je forme la petite coupelle :

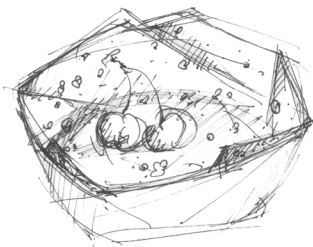

replier le
petit triangle
(selon le pli marqué)
vers l'extérieur

répéter le mouvement
aux trois angles
restants

insérer les 4 rabats
derrière les plis

voilà ma coupelle!
