

Atelier d'origami

Boîte Berlingot

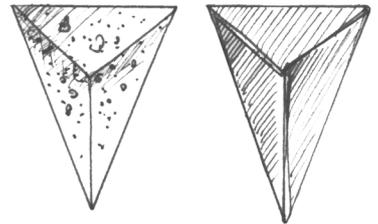

j'ai besoin de deux feuilles carrées à origami de la même taille (12x12 cm ou 15x15 cm)

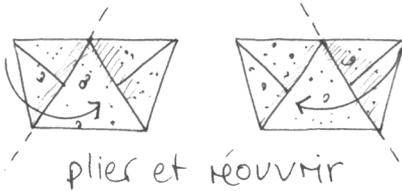

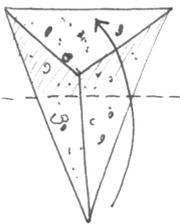

plier selon les pointillés

plier les deux côtés de la même façon

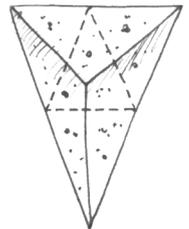

①

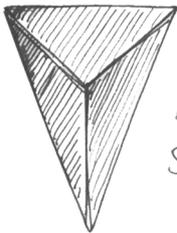

plier et réouvrir

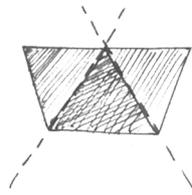

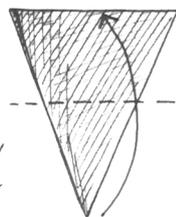

réouvrir

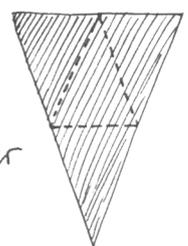

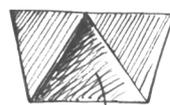

②

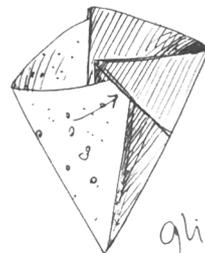

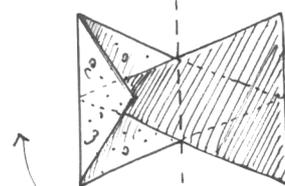

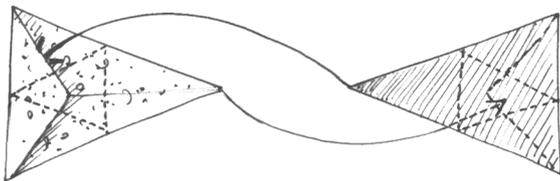

tourner sur l'autre côté

réouvrir

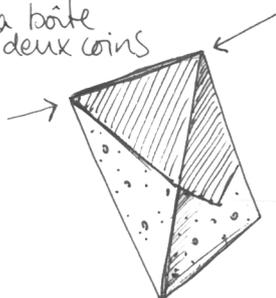

je joins les deux éléments pour former la boîte:

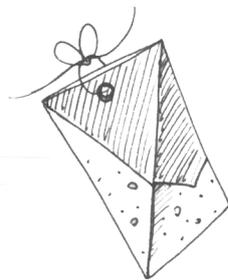

glisser les pointes sous les rabats

pour ouvrir la boîte
serrer les deux coins

soulever les deux côtés

pour fermer la boîte
je fais une perforation
et j'enfile un joli ruban
